	March					April					May				
	3-9 March	10-16 March	17-23 March	24-30 March	31 March	1-6 April	7-13 April	14-20 April	21-27 April	28-30 April	1-4 May	5-11 May	12-18 May	19-25 May	26-31 May
Preparing the necessary environment															
Determination of Requirements															
Writing Data Structures															
Creating data types															
Writing a tokenization algorithm															
Writing a postfix convertion algorithm															
Derivative algorithm															
Contour research and application															
Dataset Collection															
Model coding															
Model training															
Polynomial calculation algorithm (up to degree 4)															
Bounded integral algorithm															
Another mathematical operations
